

Skipper™ EA-YHTIÖT ➤

Product Presentation

The Tradesman's Solution

3 times the barrier for less than half the price

Great Versatility:

The Skipper barrier is much more versatile and far less bulky than current alternatives.

Durable and easy to use, the Skipper system places safety first and offers greater peace of mind. As a reusable product with a long life span, Skipper's environmental impact is also lower than many other types of barrier.

“Have two three man teams that work on JC Decaux bus stops, we find these easy to deploy, professional, and they just keep on going after 3 years.”

Steven Parks, Parks Construction
Construction

“After using the Skipper on various jobs, I have found it really versatile and a useful aid to health and safety. Quick and easy, plus it’s a huge space saver.”

Will Ellis, Self Employed
Electrician

“Love them! Use it as a protection barrier when doing installations on ships and cruise liners. Allows good safe zone around potentially very dangerous areas, neatly stow when not being used, very happy with them. With this you instantly stand out on site, safety officers are very happy, and therefore more likely to use you again.”

Nick Campbell, Principal Projects
Rigging Contractor

“Really good, compact, can be used internally and externally. From a health and safety aspect, looks professional. Doesn’t take up much space when packed away. Very impressed!”

Paul Jones, Keith Jones
& Son Decorators
Decorator

“Recently used it on an outside contract for several jobs where it has been essential to keep the public back and as a result has potentially saved me money on insurance.”

Nick Ferndown, Self Employed
Plumber

The Total Safety Management Solution

The only patented product of its type.

Skipper™ is the award winning way to cordon off any area, creating safer environments with high visibility 9m tape.

Features

- Tape Lock:** Lockable button to prevent unwanted spooling of tape.
- End Clip:** Unique tape end clip for attachment when cones are not available.
- Top Cap:** Removable top cap for additional attachments i.e. light / sign holder.
- Fixing Holes:** Screw holes for permanent fixture.

The Versatile Alternative to a Cone from Skipper

Use the spike to sink the post into the ground

Interchangeable Post & Base System

The Skipper Post is the amazing new system for the successful Skipper product line. Its great versatility allows it to be used on both hard and soft ground, indoors and outdoors.

The unique, interchangeable base allows the post to be sunk into the ground with a spike or attached to its sturdy base for use on hard surfaces. Simply pour water or sand into the base for strength and stability.

Specifications:

- Height** 1m (including base)
- Width** 500mm (base) 120mm (post)
- Weight** 1kg (post) 1.2kg (base)
Up to 10kg of water or sand can be used to weight the base

Also available in these colours:

Green

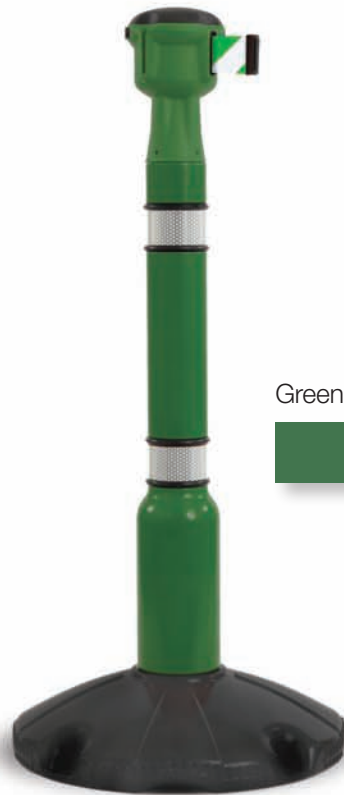

Silver

Red

Skipper units simply attach to the post as with a cone

Now Available in a Wide Range of New Colours:

A Compact and Easy to Use Clip for Any Application

Wall Receiver Clip screwed to a wall

Magnetic Receiver Clip attached to a van

Wall & Magnetic Receiver Clips

Receiver clip for walls or alternatively magnetic for vehicles. Allowing the tape end to attach direct without the need for a Skipper unit or cone.

Specifications:

Height 100mm

Width 80mm

Weight 60g

Perfect for Promotions or Warnings

Sign Holder affixed to Skipper Unit

Easy to replace messages

A4 Sign Holder

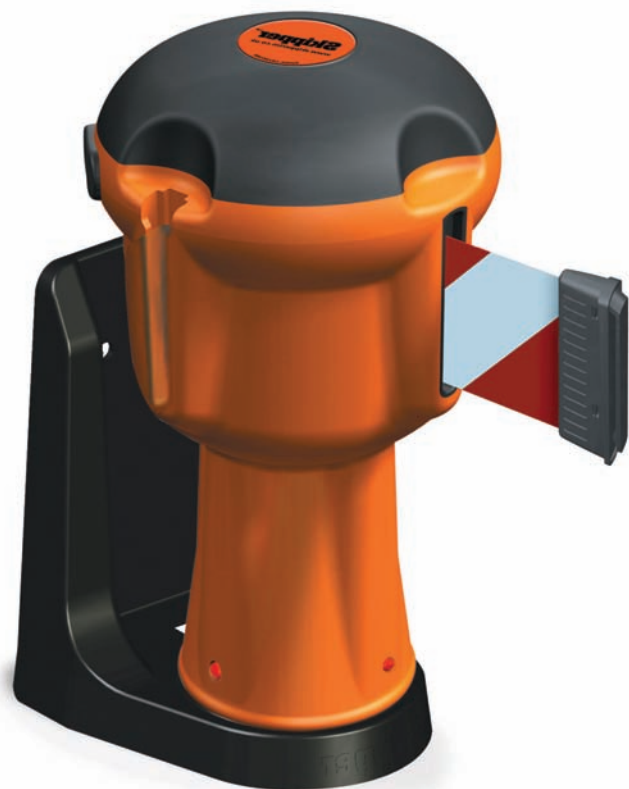

A4 Sign holder clicks on top of the unit to display any warnings or promotional messages. Simply slide your message into the polycarbonate u-shaped sleeve.

Specifications:

Height 213mm
Width 266mm
Weight 250g

A Simple and Unique Bracket for Any Application

Support Bracket screwed to a wall

Magnetic Support Bracket attached to a warehouse girder

Wall & Magnetic Support Brackets

A mounting bracket that can affix to walls or alternatively magnetic for vehicles and metal shelving, which will then hold the Skipper unit in place.

Specifications:

Height 165mm
Width 125mm
Weight 100g

The Multifunctional, BS Standard L.E.D. Road Light

Specifications:

Height 112mm

Width 140mm

Weight 600g

(Including batteries)

Conforms to BS3143 part 2 1990

Rechargeable Road Light

A multi-functional LED warning light that is fully rechargeable. With permanent or flashing facility. Also includes a light sensor for automatic activation which can be turned off.

Up to 1000 fewer disposable batteries go to landfills for every rechargeable battery used. The payback on purchasing a charger and batteries is after using them just twice...and then you keep saving for up to 3 years.

Rechargeable Road Light attached to Skipper

Soon Available from Skipper, the Stunning New Road Cone

Specifications:

Height 750mm

Width 500mm

Cone Weight 4.6kg

Weight Ring 4.5kg

Conforms to BS EN 13422

Coming in Late Summer 2012

The Skipper Road Cone is a revolutionary new two-piece cone that outperforms its competitors in all areas. The patent protected design features an incorporated helix, which deflects wind away from the cone and adds to its stability. The base is designed to facilitate an optional weight ring, providing even more ballast and reducing the need to double stack cones.

Its innovative glass bead sleeve has greater reflectivity than prismatic alternatives and is robust and durable, like the whole Skipper range. This makes it perfect for all applications, from traffic to industrial and commercial.

- **Revolutionary design**
- **Ergonomic grab handle**
- **Greater reflectivity**
- **Reduces stacking damage**

Optional weight ring

An Affinity Partnership

As your partner, we'll assist you in any way possible to help you market the product and generate awareness amongst your customer base to drive sales.
